

**READY
MIX
CONCRETE**

ABOUT US

CREATING
FUTURE
TOGETHER

Mahalaxmi RMC, with its 8 years experience into the supply of aggregates has emerged as one of the leading manufacturers and suppliers of Ready-Mix Concrete to renowned builders and contractors in Pune. There are our two plants, one at Hadapsar & Second at Mohamadwadi.

With our first batching plant in 2010, we have in a short span of time, installed 2 batching plants in different parts of the city and beyond. Our USP is unmatched quality and timely delivery and this has enabled us to achieve rapid growth and win trust and confidence of the biggest names in construction industry.

VISION

Our vision is to achieve Complete Quality Management - fully satisfying our customer's requirements through continuous improvement. It is a long-term commitment aimed at continuously improving the way we work, providing a safe work environment and ongoing monitoring of all stages of production and delivery. It is our goal to posture our company for market expansion, thereby providing improved job security and quality of life for all.

PRODUCTS

READY MIX CONCRETE

■ We have two batching plant of capacity 45 CU. MT. & 30 CU. MT. Installed in pune. From which we have delivered 2 Lac CU. MT. Concrete of various grades.

■ Producing a full range of concrete like Ordinary Concrete - M10 to M 20, Standard Concrete - M 25 to M 55, Self Compacting Concrete, Coloured Concrete, Fibre - Reinforced Concrete, Pervious Concrete.

QUALITY ASSURANCE/ QUALITY CHECK SERVICES

- Fully equipped quality control laboratory at both plants
- Technical support from Durocrete for QA/QC services
- Mix Designs are designed and tested thoroughly to yield optimal performance
- The constant in-house monitoring of our concrete performance through a regimented concrete sampling program.

■ With our quality management system comes process control. We have a thorough system of quality control in place at both of our plants. This helps us to identify, document and correct most problems before they reach the field. These procedures are also extended to the calibration and maintenance of all of our batching and testing equipment.

Our batching plants are operated through a fully computerised system to avoid errors in mixing quality.

PRODUCTS

READY MIX CONCRETE

■ We are working on government project in PMC & PWD with their approved consulting companies.

Basically we periodically carry out all the required tests of Raw Materials being used for the preparation of concrete, some of them are as follows:

1. Daily: Silt Content of Every Vehicle. Moisture Content. Water absorption. Over/Under size material of Every Vehicle.
2. Weekly: Sieve Analysis for Gradation. Dry Loose Bulk Density.
3. Monthly: Impact Value. Crushing Value. Flakiness Elongation.
4. Quarterly: Specific Gravity. Third Party testing of all the Raw Materials.

ADVANTAGE

THE MAHALAXMI RMC ADVANTAGE

Mahalaxmi RMC stands out vis-à-vis others in terms of product and services in a highly competitive industry. With our last eight years experience in the production of concrete from our batching plants we are vertically integrated with better manufacturing, marketing and financial resources in this industry than many others and enjoy competitive edge over them.

- Our USP is Guaranteed Consistent Quality and Timely Delivery of Services.
- Our strategic locations, swift supply, impeccable services, our ability to meet client's specifications and flexibility to offer RMC designs as per the requirements of the customers give us a clear edge.
- We deliver RMC 24x7 as per site requisitions.
- We have round-the-clock single point contact to attend to your needs.
- Proud history of delivering very large, peak demand for massive concreting projects of our clients within stipulated time and to guaranteed quality levels.

Example:

1. Concreting of 500 CU.MT. in one go at a single site in 36 hours.
2. Concreting of 380 CU.MT. in one go at a single site in 24 hours.

It's not just about Concrete, it's about Confidence, Quality and Reliability!

OUR CLIENTS

MAHALAXMI RMC

We have with us an experienced team of qualified professionals, engineers, RMC experts and workers. The expertise of everyone working in our team is fundamental to our success this extends from top management right through to drivers, operators, technicians and workers. The combined efforts of our management and staff coupled with our latest technology result in the best RMC solutions for our customers.

INFRA

CREATING FUTURE TOGETHER

Incorporated in the year 2011 **Mahalaxmi Infra** has since then established itself as a competent and successful construction company with a proven track record of quality and professionalism.

We have a team of expert engineers in the field of construction who are dedicated to the quality of construction. Our company, with the support of third-party consultants and industry experts, ensures compliance with standards laid down by industry and government agencies & departments. We always try to achieve excellent quality in construction.

Further, we also have our own team and facility for fabrication work, which reduces our dependence on third parties and maintains the quality as we have assured to our client.

Powered by cutting edge technology, full fledged infrastructure and skilled work force, we are well supported by several associates and competent sub-contractors from related fields.
